

To the brave men and women of Terrebonne General Medical Center (TGMC),  
As our community and nation join together to whether the storm of these unprecedented times, the Board of Commissioners and I are truly grateful for the team we have in place here at Terrebonne General Medical Center. We appreciate how our TGMC family has accepted the challenge to give our patients the ultimate compassion coupled with the very best science available. Our community, your community, stands supportive and ever so proud of TGMC and people that give it a heart.

We thank you for your courage, strength, persistence and working tirelessly during this most unpredictable situation. I realize that TGMC has overcome many challenges over the years, nothing has ever stopped us from moving forward and hopefully soon, we will move beyond this as well. We know that our team and its leadership is resilient and we will get through this together and stronger than ever. This quote is indicative of our team at TGMC:

*On a team it is not the strength of the individual players, but it is the strength of the unit and how they all function together. Bill Belichick*

The Board Members and I are standing with you. We are kept very informed and are assisting the administrative team in decisions where needed. The leadership at TGMC is very capable in guiding the organization, and as Board Members, we are very confident in their abilities. It is very important to us that we assure that you have all of the staff, tools, and supplies needed for these patients.

We keep you in our prayers, support you wholeheartedly in our community, and are most appreciative of the work you do.

Sincerely,

Michael Fakier, TGMC Board Chairman

on Behalf of the TGMC Board of Commissioners
